Hazard Analysis Form

This form can be used by Fermilab Employees, Fermilab Supervisors, Fermilab Task Managers, Construction Coordinators, Service Coordinators, and Fermilab Subcontractors. This is a dynamic document which may require modification as the project moves from start to finish and should be readily available at the site where the work is being performed.

Note: Not all sections of the first page are applicable to every job or task, complete what is necessary for your specific job or task.

Utilizing the format below, identify hazards and environmental aspects, and their corresponding safety precautions/procedures to mitigate hazards. Use as many sheets as necessary.

HAZARD ANALYSIS

Step	Description	Hazards/ Environmental Aspects	Precautions / Safety Procedures
1	×		
	* The Marx Modulator Cabinet Main structural material: Steel, Length 12 ft Height: 8 ft Width: 4 ft		MSD personnel will handle the transport of the cabinets. The pull/lift will be done from the base of the cabinet.
GI I	Estimated weight: (unloaded) ~ 3,000 lbs		A trained forklift operator together with two spotters and a task
	* Charging Supply Cabinet Main structural material: Steel, Length: 6 ft Height: 7 ft	Forklift, jacks	manager will conduct the move. The team is composed of AD mechanical experts. The equipment is owned by the laboratory and the team is familiar
- ,	Width: 2-1/2 ft Estimated weight: (unloaded)		with the equipment.
0.5	~ 1,500 lbs	1 * X	7
2	Overcome uneven terrain	Tip over	Mitigation to uneven terrain will be done with metal plates to smooth the ground.
			The cabinets will be slowly moved, especially when passing thru the parking lot and overcoming the ramp to the gallery.
	- 1,46 A	en sur la la	Cabinets will be lift just enough to clear the ground.
3	Barricade the transport route	Traffic interruption	Security is aware of the move and will assist with traffic control around the parking lot.
4	General work environment	Environmental	Maintain good housekeeping practices could alleviate the potential of injuries, such as trip hazards.
